AUTISMWARRIORMV.ORG

**Join us at the Autism Warrior
Event on June 5, 2021 at the
Canfield Fairgrounds!**

**The Ninja Obstacle course
has over 175 feet of climbing,
swinging, hanging and running.**

- You will start by running up the ramp. Then use the hand holds on the plastic wall to make your way down the first side. Green safe areas to touch the floor are at the end of the wall.
- Next turn left and run across four parkours then across three raised platforms to reach the next green zone.
- Now comes the arm strength test. The next section is made up of cheese boards, hand rings and trapeze.
- After the arm test, you will run across a balance beam and a seesaw ramp.

- Lastly, you'll make a run for it! Run as fast as you can to reach the top of either the 6' warped wall or the tougher 8' warped wall.
 - Once you reach the top press the finish button to set off the smoke cannon and a cloud of steam.
- Autism Warrior Medals will be given to top male and female overall who climb the 8' warped wall. Course run is approximately 3 minutes.

**Event will run from 9:30am-1:30pm
(register by half hour wave)
Register early to get your wave choice!**
